

ORDINANCE NO. 5-2019

AN ORDINANCE ADOPTING BY REFERENCE THE INTERNATIONAL BUILDING CODE, 2018 EDITION, THE INTERNATIONAL RESIDENTIAL CODE, 2018 EDITION, THE INTERNATIONAL PLUMBING CODE, 2018 EDITION, THE INTERNATIONAL MECHANICAL CODE, 2018 EDITION, THE INTERNATIONAL FUEL GAS CODE, 2018 EDITION, THE INTERNATIONAL FIRE CODE, 2018 EDITION, THE INTERNATIONAL ENERGY CONSERVATION CODE, 2018 EDITION, THE INTERNATIONAL PROPERTY MAINTENANCE CODE, 2018 EDITION, THE INTERNATIONAL EXISTING BUILDING CODE, 2018 EDITION, AND THE INTERNATIONAL SWIMMING POOL AND SPA CODE, 2018 EDITION, PROMULGATED BY THE INTERNATIONAL CODE COUNCIL.

WHEREAS, the Town of Wellington wishes to adopt an ordinance repealing Articles 1, 2, 3, 4, 5, 7, 8, 9 & 10, Chapter 18 of the Wellington Municipal Code and adopting by reference the International Building Code (2018 Edition); The International Residential Code for One – and Two – Family Dwellings (2018 Edition); The International Plumbing Code (2018 Edition); The International Mechanical Code (2018 Edition); The International Fuel Gas Code (2018 Edition); The International Fire Code (2018 Edition); The International Energy Conservation Code (2018 Edition); The International Property Maintenance Code (2018 Edition); The International Existing Building Code (2018 Edition); and The International Swimming Pool and Spa Code (2018 Edition), Promulgated by the International Code Council, Inc, 4051 West Flossmoor Road, Country Club Hills, Illinois 60478-5795, with specified amendments to each.

NOW, THEREFORE BE IT ORDAINED by the Board of Trustees of the Town of Wellington, Colorado:

Section 1. International Building Code. The Board of Trustees hereby repeals Article 1, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-1-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the building code of the Town, by reference thereto, the International Building Code, 2018 Edition, Chapters 1 through 33 inclusive and Appendix Chapter I, as published by the International Code Council, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 60478, to have the same force and effect as if set forth herein in every particular. The subject matter of the adopted code includes comprehensive provisions and standards regulating the erection, construction, enlargement, alteration, repair, moving, removal, conversion, demolition, occupancy, equipment, use, height, area and maintenance of buildings and structures for the purpose of protecting the public health, safety and general welfare.

Sec. 18-1-20. Copy on file.

At least one (1) copy of the International Building Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-1-30. Amendments.

IBC Section 101.1 IBC Section 101.1 (Title) is amended by the addition of "Town of Wellington" where indicated.

IBC Section 101.4.3 IBC Section 101.4.3 (Plumbing) is amended by the deletion of the last sentence.

IBC Section 101.4.5 IBC Section 101.4.5 (Fire prevention) is amended by replacing "International Fire Code" with "adopted fire code".

IBC Section 101.4.6 IBC Section 101.4.6 (Energy) is amended by replacing "International Energy Conservation Code" with "2018 International Energy Conservation Code".

IBC Section 105.1 IBC Section 105.1 (Required) is amended by replacing "building official" with "town".

IBC Section 105.2 IBC Section 105.2 (Work exempt from permit) is amended by:

Building Exception #1 is deleted in its entirety and replaced with "One-Story detached accessory structures used as tool and storage sheds, playhouses and similar uses, provided the floor area does not exceed 120 square feet and the roof height does not exceed 10 feet above grade measured from a point directly outside the exterior walls of the structure."

Building Exception #2 is deleted in its entirety and replaced with "Fences not over 6 feet high.

Building Exception #14 is added to read "Shingle repair or replacement work not exceeding one square (100 square feet in area) of covering per building.

IBC Section 105.5 IBC Section 105.5 (Expiration) is amended by the deletion of this section in its entirety and replaced with the following:

"Every permit issued by the building official under the provisions of this code shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 180 days from the date of

such permit, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days. Before such work can be recommenced, a new permit shall be first obtained to do so, and the fee therefor shall be one half the amount of the original permit fee, exclusive of any taxes or other fees already accessed, provided no changes have been made or will be made in the original plans and specifications for such work, and provided further that such suspension or abandonment has not exceeded one year. In order to renew action on a permit after expiration, the permittee shall pay a new full permit fee."

IBC Section 109.4 IBC Section 109.4 (Work commencing before permit issuance) is amended by the deletion of this section in its entirety and replaced with the following:

"Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits may be subject to an investigation fee established by the town. The amount of the investigation fee may be in the amount up to the amount of the permit fee that would normally be accessed for the specific type of construction activity, with any such investigation fee being *in addition to* all other required permit fees. The investigation fee shall be collected whether or not a permit is then subsequently issued.

IBC Section 109.6 IBC Section 109.6 (Refunds) is amended by the deletion of this section in its entirety and replaced with the following:

"The town may authorize refunding of any fee paid hereunder which was erroneously paid or collected.

The town may authorize refunding of not more than 80 percent (80%) of the permit fee paid when no work has been done under a permit issued in accordance with this code.

The town may authorize refunding of not more than 80 percent (80%) of the plan review fee paid when an application for a permit for which a plan review fee has been paid is withdrawn or cancelled before any plan reviewing is done.

The town shall not authorize refunding of any fee paid except on written application filed by the original permittee not later than 180 days after the date of fee payment."

IBC Section 111.3 IBC Section 111.3 (Temporary occupancy) is amended by deleting the words "building official" in the first and second sentence and replacing it with "town".

IBC Section 113.1 IBC Section 113.1 (General) is amended by the deleting the last two sentences and inserting the following:

"The members of the Board of Appeals shall be comprised of the members of the Town Board of Appeals."

IBC Section 113.3 IBC Section 113.3 (Qualifications) is amended by the deletion of this section in its entirety.

IBC Section 114.2 IBC Section 114.2 (Notice of Violation) is amended by the addition of "Notice of Violations shall be delivered in accordance with section 107 of the IPMC" after the last paragraph.

IBC Section 202 IBC Section 202 (Definitions) is amended by addition of the following:

"Sleeping Room" (Bedroom) is any enclosed habitable space within a dwelling unit, which complies with the minimum room dimension requirements of IBC Section 1208 and contains a closet, an area that is useable as a closet, or an area that is readily convertible for use as a closet. Living rooms, family rooms and other similar habitable areas that are so situated and designed so as to clearly indicate these intended uses, shall not be interpreted as sleeping rooms.

IBC Section 915.2.1 IBC Section 915.2.1 (Dwelling units) is amended by the deletion of the first sentence and replaced with the following:

"Carbon monoxide detection shall be installed in dwelling units within 15 feet of each separate sleeping area."

IBC Section 1015.2 IBC Section 1015.2 (Where required) is amended by the addition of a second paragraph inserted before the exceptions as follows:

"All area wells, stair wells, window wells and light wells attached to any building that are located less than 36 inches (914.4 mm) from the nearest intended walking surface and deeper than 30 inches (762 mm) below the surrounding ground level, creating an opening greater than 24 inches (610 mm) measured perpendicular from the building, shall be protected with guardrails conforming to this section around the entire opening, or be provided with an equivalent barrier.

IBC Section 1020.1 IBC Section 1020.1 (Table 1020.1 Corridor Fire-Resistance Rating) is amended to replace the corridor rating for R Occupancies with a sprinkler system from 0.5 to 1-Hour fire rating.

IBC Section 1030.1 IBC Section 1030.1 (General) is amended by the deletion of exception #4.

IBC Section 1030.2. IBC Section 1030.2. (Minimum size) is amended by the deletion of the exception.

IBC Section 1301.1.1 IBC Section 1301.1.1 (Criteria) is amended by replacing "International Energy Conservation Code" with the "2018 International Energy Conservation Code".

IBC Section 1612.3 IBC Section 1612.3 (Establishment of flood hazard areas) is amended by the insertion of "town of Wellington" where indicated in [Name of Jurisdiction] and the date of the latest flood insurance study for the town February 4, 2013, where indicated in [Date of Issuance].

Sec. 18-1-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-1-50. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 2. International Residential Code. The Board of Trustees hereby repeals Article 2, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-2-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the building code of the Town, by reference thereto, the International Residential Code, 2018 Edition, Chapters 1 through 43 inclusive and Appendix Chapters F, H and M, as published by the International Code Council, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 604781, to have the same force and effect as if set forth herein in every particular. The subject matter of the adopted code includes comprehensive provisions and standards regulating the erection, construction, enlargement, alteration, repair, moving, removal, conversion, demolition, occupancy, equipment, use, height, area and maintenance of buildings and structures for the purpose of protecting the public health, safety and general welfare.

Sec. 18-2-20. Copy on file.

At least one (1) copy of the International Residential Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-2-30. Amendments.

IRC Section R101.1 IRC Section R101.1 (Title) is amended by the addition of the term "Town of Wellington" where indicated.

IRC Section R105.1 IRC Section R105.1 (Required) is amended by replacing the words "building official" with "town".

IRC Section R105.2 IRC Section R105.2 (Work Exempt from Permit) is amended by:

Building Exception #1 is deleted in its entirety and replaced with "One-Story detached accessory structures used as tool and storage sheds, playhouses and similar uses, provided the floor area does not exceed 120 square feet and the roof height does not exceed 10 feet above grade measured from a point directly outside the exterior walls of the structure."

Building Exception #2 is deleted in its entirety and replaced with "Fences not over 6 feet high.

Building Exception #10 is deleted in its entirety and replaced with: "Shingle repair or replacement work not exceeding one square (100 square feet in area) of covering per building.

IRC Section 105.5 IRC Section 105.5 (Expiration) is amended by the deletion of this section in its entirety and replaced with the following:

"Every permit issued by the building official under the provisions of this code shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 180 days from the date of such permit, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days. Before such work can be recommenced, a new permit shall be first obtained to do so, and the fee therefor shall be one half the amount required for a new permit for such work, provided no changes have been made or will be made in the original plans and specifications for such work, and provided further that such suspension or abandonment has not exceeded one year. In order to renew action on a permit after expiration, the permittee shall pay a new full permit fee."

IRC Section R108.5 IRC Section R108.5 (Refunds) is amended by the deletion of this section in its entirety and replaced with the following:

"The town may authorize refunding of any fee paid hereunder which was erroneously paid or collected.

The town may authorize refunding of not more than 80 percent (80%) of the permit fee paid when no work has been done under a permit issued in accordance with this code.

The town may authorize refunding of not more than 80 percent (80%) of the plan review fee paid when an application for a permit for which a plan review fee has been paid is withdrawn or cancelled before any plan reviewing is done.

The town shall not authorize refunding of any fee paid except on written application filed by the original permittee not later than 180 days after the date of fee payment.”

IRC Section R108.6 Section R108.6 (Work commencing before permit issuance) is amended by the deletion of this section in its entirety and replaced with the following:

“Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits may be subject to an investigation fee established by the town. The amount of the investigation fee may be in the amount up to the amount of the permit fee that would normally be accessed for the specific type of construction activity, with any such investigation fee being *in addition to* all other required permit fees. The investigation fee shall be collected whether or not a permit is then subsequently issued.

IRC Section R109.1.5 IRC Section R109.1.5 (Other inspections) is amended by the addition of a new subsection as follows:

R109.1.5.2 Insulation Inspection. Inspection of the structure shall be made following installation of the wall, ceiling and floor insulation and exterior windows and before wall coverings are installed.

IRC Section R110.4 IRC Section R110.4 (Temporary occupancy) is amended by the deletion of the words “building official” in the first and second sentence and replaced with “town”.

IRC Section R112.1 IRC Section R112.1 (General) is amended by the deleting the last three sentences and inserting the following:

“The members of the Board of Appeals shall be comprised of the members of the Town Board of Appeals.”

IRC Section R112.3 IRC Section R112.3 (Qualifications) is amended by the deletion of this section in its entirety.

IRC Section R113.2 IRC Section R113.2 (Notice of Violation) is amended by the addition of “Notice of Violations shall be delivered in accordance with section 107 of the IPMC” after the last paragraph.

IRC Section R202 IRC Section R202 (Definitions) is amended by addition of the following:

“Sleeping Room” (Bedroom) is any enclosed habitable space within a dwelling unit, which complies with the minimum room dimension requirements of IRC

Sections R304 and R305 and contains a closet, an area that is useable as a closet, or an area that is readily convertible for use as a closet. Living rooms, family rooms and other similar habitable areas that are so situated and designed so as to clearly indicate these intended uses, shall not be interpreted as sleeping rooms.

IRC Table R301.2 (1) IRC Table R301.2 (1) is filled to provide the following:

Table R301.2 (1)
Climatic and Geographic Design Criteria

Ground Snow Load	Wind Design		Seismic Design Category	Subject to Damage From			Winter Design Temp	Ice barrier Underlayment Required	Flood Hazard	Air Freezing Index	Mean Annual Temp
	Speed (V)	Topographic effects		Weathering	Frost Line Depth	Termite					
30psf	115	No	B	Severe	30 in.	Slight to Moderate	1	YES	*	1000	45°F

*The Flood Insurance Study for Larimer County, Colorado and Incorporated Areas, Map # 08069C0759F dated December 19, 2006 and amended February 4, 2013.

IRC Section R302.1 IRC Section R302.1 (Exterior walls) is amended by the deletion of the wording; “or dwellings equipped throughout with an automatic sprinkler system installed in accordance with section P2904 shall comply with table R302.1(2).”

IRC Table R302.1 (2) IRC Table R302.1 (2) is deleted in its entirety.

IRC Section R302.3 IRC Section R302.3 (Two-family dwelling) is amended by replacing “1-Hour fire-resistance rating” with “2-Hour fire-resistance rating” and by deleting exception 1.

IRC Section R302.13 IRC Section R302.13 (Fire Protection of Floors) is amended by the addition of exceptions 5, 6, and 7 as follows:

Exception #5 - For floor assemblies located over a basement or crawlspace, mechanical equipment rooms not larger than 80 square feet constructed per sections R302.13 with minimum ½ gypsum wallboard on the enclosing walls and a self-closing weather-stripped solid door.

Exception #6 - Floor assemblies located over a basement or crawlspace, with mechanical equipment rooms not larger than 80 square feet may be constructed per Exception #4, using fire treated I joists only above furnace closet area with minimum 5/8 inch Type X gypsum wallboard on the enclosing walls and a self-closing weather stripped solid core 20 minute rated door and frame.

Exception #7 - For floor assemblies located over a basement or crawl space with a mechanical equipment room not larger than 80 square feet may be unprotected if a fire sprinkler head is installed in accordance with section P2904 or the International Building Code sections 903.3.1.2 or 903.3.1.3, installed within the equipment room on a domestic water loop.

IRC Section R303.4 IRC Section R303.4 (Mechanical Ventilation) is amended by replacing "5 air changes per hour" with "7 air changes per hour" and replacing the words "in accordance with section N1102.4.1.2" with "in accordance with section R402.4.1.2 of the International Energy Conservation Code 2018 Edition.

IRC Section R309.5 IRC Section R309.5 (Fire sprinklers) is amended by the deletion of this section in its entirety.

IRC Section R310.1 IRC Section R310.1 (Emergency escape and rescue opening required) is amended by adding the following after the first paragraph:

"All windows located in basements, habitable attics and sleeping rooms shall meet all the requirements of section R310.1 through R310.2.5."

Exception #2 is amended by the deletion of the exception and its conditions.

IRC Section R310.2.1 IRC Section R310.2.1 (Minimum opening area) is amended by the deletion of the exception.

IRC Section R310.2.3 IRC Section R310.2.3 (Window wells) is amended by the addition of the following;

"For all building permits issued after the effective date of Ordinance 9-2002, all escape and rescue windows requiring a window well pursuant to the International Residential Code shall comply with the dimension requirements set forth in this section, whether or not said escape or rescue window is located in a sleeping room.

With regard to building permits issued prior to the effective date of Ordinance 9-2002, for additions to or alterations of existing buildings or structures, any window well with a finished sill height below adjacent ground level shall be deemed in compliance with the Towns regulations if said window well meets the dimensions set forth in the 1991 Edition of the Uniform Building Code, previously in effect in the town."

IRC Section R310.2.3.1 IRC Section R310.2.3.1 (Ladder and steps) is amended by the addition of the following exception to read as follows:

"Exception: Only one window well ladder shall be required in an unfinished basement."

IRC Section R312.1 IRC Section R312.1 (Guards required) is amended by the addition of a third paragraph as follows:

"All area wells, stair wells, window wells and light wells attached to any building that are located less than 36 inches (914 mm) from the nearest intended walking surface and deeper than 30 inches (762 mm) below the surrounding ground level, creating an opening greater than 24 inches (610 mm) measured perpendicular from the building, shall be protected with guardrails conforming

to this section around the entire opening, or be provided with an equivalent barrier.

Exceptions:

1. The access side of stairways need not be protected.
2. Area and window wells provided for emergency escape and rescue windows may be protected with approved grates or covers that comply with Section R310.4 of this code.
3. Covers and grates may be used over stairways and other openings used exclusively for service access or for admitting light or ventilation.”

IRC Section R313 IRC Section R313 (Automatic Fire Sprinkler Systems) is amended by the deletion of this section in its entirety.

IRC Section R313.2 IRC Section R313.2 (One- and Two-Family Dwellings Automatic Fire Sprinkler Systems) is amended by the deletion of this section in its entirety.

IRC Section R315.3 IRC Section R315.3 (Location) is amended by deleting the first sentence and replacing it with the following:

“Carbon monoxide detection shall be installed in dwelling units within 15 feet of each separate sleeping area.”

IRC Section R401.2 IRC Section R401.2 (Requirements) is amended by the addition of the following after the first paragraph:

“Foundations shall be designed and the construction drawings stamped by a Colorado registered design professional. The foundation design must be based on an engineer’s soils report. The drawings must be noted with the engineering firm name, specific location for design and soils report number. A site certification prepared by State of Colorado registered design professional is required for setback verification on all new Group R Division 3 occupancies.”

IRC Section R405.1 IRC Section R405.1 (Concrete or masonry foundations) is amended with the addition of the following after the first sentence: All foundation drains shall be designed and inspected by a State of Colorado registered design professional.

IRC Chapter 11 IRC Chapter 11 (Energy Efficiency) is amended by the deletion of this chapter in its entirety and replaced with the 2018 International Energy Conservation Code.

IRC Section M1502.4.5.2 IRC Section M1502.4.5.2 (Manufactures instructions) is amended by the deletion of this section in its entirety.

IRC Section G2415.12 IRC Section G2415.12 (Minimum burial depth) is amended by the addition of the following: All plastic fuel gas piping shall be installed a minimum of 18 inches (457 mm) below grade.

IRC Section G2415.12.1 IRC Section G2415.12.1 (Individual outdoor appliances) is deleted in its entirety.

IRC Section G2417.4.1 IRC Section G2417.4.1 (Test pressure) is amended by replacing 3 psig with 10 psig.

IRC Section G2417.4.2 IRC Section G2417.4.2 (Test Duration) is amended by replacing "10 Minutes" with "15 Minutes".

IRC Section P2503.5.1 IRC Section P2503.5.1 (Rough plumbing) is amended by the deletion of the first sentence and replaced with "DWV systems shall be tested on completion of the rough piping installation by water or air without evidence of leakage."

IRC Section P2603.5.1 IRC Section P2603.5.1 (Sewer depth) is amended by filling in both areas where indicated to read "12 inches (305 mm)".

IRC Section P2913 IRC Section P2913 (Reclaimed water systems) is deleted in its entirety.

IRC Section P3103.1.1 IRC Section P3103.1.1 (Roof extension) is amended by replacing "6 inches" with "12 inches".

IRC Section AF101 IRC Section AF101 (General) is amended by the deletion of this section in its entirety and replaced with "This appendix contains requirements for new construction."

IRC Section AM102 IRC Section AM102 (Definition) is amended by the addition of "Home Care Facilities".

HOME CARE FACILITIES. A home wherein care is given to up to eight care recipients with a maximum number of nine occupants located in the primary residence of the care giver. A Home Care Facility is considered a home occupation.

IRC Section AM103.1 IRC Section AM103.1 (Exits required) is deleted in its entirety and replaced with the following: "During the time of operation of the day care, two exits are required from the ground-level story. Two exits are required from a home day care operated in a manufactured home regardless of the occupant load. Exits shall comply with Section R311."

IRC Section AM103.1.2 IRC Section AM103.1.2 (Basements) is amended by the addition of the following paragraph; "An emergency and escape window used as the second means of egress from a basement shall comply with Sections R310 and AM 103.1.1 and be located in the area or room used for home care purposes."

IRC Section AM103.1.3 IRC Section AM103.1.3.1 (Type of fence and hardware) is deleted in its entirety and replaced with the following; "The fence shall be of durable materials and be not less than 4 feet (1219 mm) tall, completely enclosing the area used for the day care operations. Each opening shall be a gate or door equipped with a self-closing and self-latching device to be installed at not less than 42 inches (1067 mm) above the ground."

IRC Section AM103.1.3.2 IRC Section AM103.1.3.2 (Construction of fence) is amended by the deletion of exception #3 in its entirety.

Sec. 18-2-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-2-50 . Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 3. International Plumbing Code. The Board of Trustees hereby repeals Article 3, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-3-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the building code of the Town, by reference thereto, the International Plumbing Code, 2018 Edition, Chapters 1 through 13 inclusive, as published by the International Code Council, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 604781, to have the same force and effect as if set forth herein in every particular. The purpose of said code is to protect the health and sanitation of the residents of the Town by providing comprehensive regulations governing materials, installation methods and other matters pertaining to plumbing for the purpose of protecting the public health, safety and general welfare.

Sec. 18-3-20. Copy on file.

At least one (1) copy of the International Plumbing Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price. Sec.

18-3-30. Amendments.

IPC Section 101.1 IPC Section 101.1 (Title) is amended by the addition of the term "Town of Wellington" where indicated.

IPC Section 305.4.1 IPC Section 305.4.1 (Sewer depth) is amended by filling in both areas where indicated to read "12 inches (305 mm)".

IPC Section 312.3 IPC Section 312.3 (Drainage and vent air test) is amended by the deletion of the first sentence.

IPC Section 903.1 IPC Section 903.1 (Roof extension) is amended by inserting the number "12" (152.4 mm) where indicated in the second sentence.

IPC Section 1304 IPC Section 1304 (Reclaimed water systems) is deleted in its entirety.

Sec. 18-3-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-3-50. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 4. International Mechanical Code. The Board of Trustees hereby repeals Article 4, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-4-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the building code of the Town, by reference thereto, the International Mechanical Code, 2018 Edition, Chapters 1 through 15 inclusive, as published by the International Code Council, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 604781, to have the same force and effect as if set forth herein in every particular. The purpose and subject matter of the adopted code is to include comprehensive provisions and standards relating to the mechanical installations in or in connection with the construction, erection, installation, alteration, repair, relocation, replacement, addition to, maintenance or use of heating, ventilating, cooling and refrigeration systems, incinerators and other miscellaneous heatproducing appliances within the Town for the purpose of protecting the public health, safety and general welfare.

Sec. 18-4-20. Copy on file.

At least one (1) copy of the International Plumbing Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-4-30. Amendments.

IMC Section 101.1 IMC Section 101.1 (Title) is amended by the addition of the term "Town of Wellington" where indicated.

IMC Section 504.8.4.2 IMC Section 504.6.4.2 (Manufactures Instructions) is deleted in its entirety.

Sec. 18-4-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-4-50. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 5. International Fuel Gas Code. The Board of Trustees hereby repeals Article 5, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-5-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the building code of the Town, by reference thereto, the International Fuel Gas Code, 2018 Edition, Chapters 1 through 8 inclusive, as published by the International Code Council, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 604781, to have the same force and effect as if set forth herein in every particular. The subject matter of the adopted code establishes minimum regulations for fuel gas systems and gas-fired appliances for the purpose of protecting the public health, safety and general welfare.

Sec. 18-5-20. Copy on file.

At least one (1) copy of the International Fuel Gas Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-5-30. Amendments.

IFGC Section 101.1 IFGC Section 101.1 (Title) is amended by the addition of the term "Town of Wellington" where indicated.

IFGC Section 404.12 IFGC Section 404.12 (Minimum burial depth) is amended by the addition of the following: All plastic fuel gas piping shall be installed a minimum of 18 inches (457 mm) below grade.

IFGC Section 404.12.1 IFGC Section 404.12.1 (Individual outside appliances) is deleted in its entirety.

IFGC Section 406.4.1 IFGC Section 406.4.1 (Test pressure) is amended by replacing 3 psig with 10 psig.

IFGC Section 406.4.2 IFGC Section 406.4.2 (Test duration) is amended by changing the second paragraph to read; "When testing a system having a volume less than 10 cubic feet or a system in a single-family dwelling, the test duration shall be not less than 15 minutes".

IFGC Section 614.8.4.2 IFGC Section 614.8.4.2 (Manufactures instructions) is deleted in its entirety.

Sec. 18-5-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-5-50. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 6. International Fire Code. The Board of Trustees hereby repeals Article 7, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-7-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the fire code of the Town, by reference thereto, the International Fire Code, 2018 Edition, Chapters 1 through 68 inclusive, and appendices, as published by the International Code Council, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 604781, to have the same force and effect as if set forth herein in every particular. The purpose and subject matter of the adopted code is to establish standards for the safeguarding of life and property from fire and explosion hazards arising from the storage, handling and use of hazardous substances, materials and devices, and from conditions hazardous to life or property in the occupancy of buildings and premises and conditions affecting the safety of firefighters and emergency responders during emergency operations.

Sec. 18-7-20. Copy on file.

At least one (1) copy of the International Fire Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-7-30. Amendments.

101.1 Amend this section to read **Title**. These regulations shall be known as the Fire Code of the Wellington Fire Protection District, hereinafter referred to as "this code".

102.4 Amend this section to read **Application of Building Code**. The design and construction of new structures shall comply with the *International Building Code* or *International Residential Code* and the *International Fire Code*, and any alterations, additions, changes in use or changes in structures required by this code, which are within the scope of the *International Building Code* or *International Residential Code*, shall be made in accordance therewith.

102.7 Amend this section to read **Referenced codes and standards**. The codes and standards referenced in this code shall be the most currently published edition of those that are listed in Chapter 80, and such codes and standards shall be considered part of the requirements of this code to the prescribed extent of each such reference and as further regulated in Sections 102.7.1 and 102.7.2.

103.4 Amend this section to read **Liability**. The fire code official, member of the board of appeals, officer or employee charged with the enforcement of this code, while acting for the jurisdiction, in good faith and without malice in the discharge of the

duties required by this code or other pertinent law or ordinance, shall not thereby be rendered civilly or criminally liable personally, and is hereby relieved from all personal liability for any damage accruing to persons or property as a result of an act or a mission or by reason of an act or mission in the discharge of official duties, unless such act or a mission is willful and wanton, as provided in the Colorado Governmental Immunity Act, Section 24-10-101, *et seq.*, C.R.S.

103.4.1 Amend this section to read **Legal defense**. Any suit or criminal complaint instituted against any officer or employee because of an actor mission performed by the officer employee in the lawful discharge of duties an under the provisions of this code, unless such act or a mission is willful and wanton, as provided in the Colorado Governmental Immunity Act, Section 24-10-101, *et seq.*, C.R.S. Shall be defended by a legal representative of the jurisdiction until the final termination of the proceedings. The fire code official or any subordinate shall not be liable for costs in an action, suit or proceeding that is instituted in pursuance of the provisions of this code: and any officer of the department of fire prevention, acting in good faith and without malice, shall be free from liability for acts performed under any of its provisions or by reason of act or omission in the performance of official duties in connection therewith.

105.1.2 Amend this section to read **Types of permits**. There shall be two types of 105 as follows:

1. Operational permit. An operational permit allows the applicant to conduct an operation or a business for which a permit is required by Section 105.6 for either:
 - 1.1.1. A prescribed period
 - 1.1.2. Until renewed or revoked
2. Construction permits. A construction permit allows the applicant to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, the likes of which are regulated by this code. A construction permit also allows the applicant to install or modify systems and equipment for which a permit is required by Section 105.7.

105.4.1 Amend this section to read **Submittals**. *Construction documents* and supporting data shall be submitted with each application for a permit and in such form and detail as required by the *fire code official*. The *construction documents* shall be prepared by a registered design professional where required by the jurisdiction in which the project is to be constructed.

105.6.30 Amend this section to read **Mobile food preparation vehicles**. A permit is required for mobile food preparation vehicles equipped with cooking appliances.

105.6.36 Amend this section to read **Outdoor assembly event**. An operational permit is required to conduct an outdoor assembly event where planned attendance exceeds 50 persons.

105.6.51 Amend this section to read **Care Facilities within a Dwelling.** An operational permit is required to conduct a care facility within a dwelling.

105.7.25 Amend this section to read **Temporary membrane structures and tents.** A construction permit is required to erect an air-supported temporary membrane structure, a temporary stage canopy or a tent having an area in excess of 200 square feet (18.58 m²).

109.1 Amend this section to read **Board of Appeals.** In order to hear and decide appeals of orders, decisions or determinations made by the fire code official relative to the application an interpretation of this code, there shall be and is hereby created a board of appeals to be known as the fire board of appeals . The members of the Wellington Fire Protection District Board of Directors shall appoint and constitute the fire board of appeals as necessary. The fire code official shall be an ex officio member of said board but shall not have a vote on any matter before the board. The board shall adopt rules of procedure for conducting its business in shall render all decisions and findings in writing to the appeal went with a duplicate copy to the fire code official. Application for an appeal and all process and procedures for an appeal shall be as stipulated in 109.1.1.

109.1.1 Add the following section **Procedures.** To request a hearing before the board of appeals, the applicant shall file a request in writing to the fire chief. The fire chief shall arrange for the board of appeals to meet within 10 working days from the receipt of the request. All applicable fees as stated in the fire district fee schedule shall be paid at the time the written request is made.

109.3 Amend this section to read **Qualifications.** The board of appeals shall consist of members who are qualified by experience and training to pass on matters pertaining to hazards of fire, explosions, hazardous conditions, or fire protection systems.

110.4 Amend this section to read **Violation penalties.** Persons who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the fire code official, or of a permit or certificate used under the provisions of this code, shall be guilty of a misdemeanor, and upon conviction shall be subject to the penalties, costs and orders provided by local enforcement agency and as determined by the District. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

110.5 Add this section in its entirety **Work commencing before permit issuance.** In addition to penalty you set forth in section 110.4, any person or firm who, before obtaining the necessary permit(s), commences any construction of, or work on, a building, structure, fire protection system, fire alarm system, or fire extinguishing system that is not otherwise exempted from obtaining a permit, shall be subject to a processing and penalty fee in addition to the standard prescribed permit fee. Such additional fine shall be equal to the permit fee, except that such fine shall not be less than \$50 or more than \$1000 for the first such violation. A person or firm committing the same violation repeatedly is subject to processing and penalty fees equal to double the amount of the permit be or double the

amount of the preceding violation, whichever is greater, for every same such subsequent violation committed thereafter within 180-day period.

112.4 Amend this section to read **Failure to comply.** Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be liable to a fine as determined by the court and shall be subject to a fee as adopted by the fire district.

GENERAL DEFINITIONS Amend or added on alphabetic sequence in the following respects:

BED & BREAKFAST FACILITIES. A facility providing accommodations for 6 (six) guests or less that is also occupied as the single-family residence of the proprietor.

COOKING APPLIANCES. Appliances used in a food service establishment for heating or cooking food and which produce grease, grease vapors, steam, fumes, smoke or odors. For the purpose of this definition, a food service establishment shall include any building, or a portion thereof used for preparation and food service.

CONTROLLED BURNING. Any fire intentionally ignited to meet specific land management objectives, such as to reduce flammable fuels, restore ecosystem health, recycle nutrients, or prepare an area for new trees or vegetation. Controlled burning may also be known by the term "Pile Burning."

DWELLING. A building used exclusively for residential occupancy and for permitted accessory, including single family dwellings, two- family dwellings and multifamily dwellings. The term dwellings shall not include hotels, motels, homeless shelters, seasonal overflow shelters, tents, or other structures designed for use primarily for temporary occupancy. Any dwelling shall be deemed to be a principle building.

FIRE AREA. The aggregate floor area enclosed and bounded by fire walls meeting the requirements of Section 706 of the International Building Code and, exterior walls or horizontal assemblies of a building. Areas of the building not provided with surrounding walls shall be included in the fire area if such areas are included within the horizontal projection of the roof or floor next above. For buildings constructed under the *International Residential Code*, the fire area is the aggregate floor area enclosed and bounded by exterior walls of a building.

FAMILY. Any number of persons who are all related by blood, marriage, adoption, guardianship, or other duly authorized custodial relationship, and who live together as a single housekeeping unit and share common living, sleeping, cooking and eating facilities.

LIVING UNIT. One family, plus up to two additional individuals whose place of residence is with the family in the dwelling.

MOBILE FOOD PREPARATION VEHICLES. Vehicles that contain cooking appliances for the purpose of preparing and/or serving food to the public. Vehicles intended for private recreation shall not be considered mobile food preparation vehicles.

MOBILE FUELING. The operation of dispensing liquid fuels from tank vehicles into the fuel tanks of vehicles. Mobile fueling may also be known by the terms "Mobile fleet fueling," "Wet fueling", "Wet hosing", or "Hot fueling".

SLEEPING UNIT (BEDROOM). A habitable room within a dwelling or other housing unit designed primarily for the purpose of sleeping. The presence of a bed, cot, mattress, convertible sofa or other similar furnishing used for sleeping purposes shall be a prima facie evidence that such space or room is a sleeping room. The presence of closets or similar storage facilities shall not be considered relevant factors in determining whether or not is sleeping room.

RESORT LODGE CABIN. Cabin that is a building or group of building, under single management and ownership, containing rooms and/or dwelling units available for temporary rental to guests where the primary attraction is generally recreational features or activities.

ROOM, SLEEPING (BEDROOM). A habitable room within a dwelling or other housing unit designed primarily for the purpose of sleeping. The presence of a bed, cot, mattress, convertible sofa or other similar furnishing used for sleeping purposes shall be a prima facie evidence that such space or room is a sleeping room. The presence of closets or similar storage facilities shall not be considered relevant factors in determining whether or not is sleeping room.

TOWNHOUSE. A single-family dwelling unit constructed as part of a group of two or more attached individual dwelling units.

OCCUPANCY CLASSIFICATIONS

Institutional Group I-1 – Five or fewer persons receiving care. A facility such as the above with five or fewer persons receiving such care shall be classified as Group R-3 or shall comply with the International Residential Code provided an automatic sprinkler system is installed in accordance with Section 903.3.1.3.

Institutional Group I-2 - Five or fewer persons receiving care. A facility such as the above with five or fewer persons receiving such care shall be classified as Group R-3 or shall comply with the International Residential Code provided an automatic sprinkler system is installed in accordance with Section 903.3.1.3.

Residential Group R-3 – Care facilities within a dwelling. Care facilities for eight or fewer persons receiving care that are within a single-family dwelling are permitted to comply with the International Residential Code.

307.2.2 Add to this section **Time and Atmospheric Restrictions.** Open burning shall only be performed when time and atmospheric conditions comply with the limits set forth in the Open Burning Permit.

307.4.1 Amend this section in its entirety **Bonfires.** A bonfire shall not be conducted within 100 (30m) of a structure or combustible material unless the fire is contained in a barbecue pit. Conditions that could cause a fire to spread within 100 ft (30m) of a structure shall be eliminated prior to ignition.

307.4.1.1 Amend this section in its entirety **Bonfire Size.** The fuel package pile for a bonfire it must be approved prior to ignition and shall not exceed 10 feet in diameter in 8 feet in height and less approved by the fire code official. Based on atmospheric conditions, location, adjacent structures, combustible materials or wildland fire danger rating's, smaller fuel package piles may be required period fuels for a bonfire shall be clean, dry, untreated wood products only. Fuel shall not be added to the bonfire once it is ignited without prior approval of the fire code official. The use of Class I flammable liquids is prohibited. Class II combustible liquids may only be used prior to ignition and only in accordance with an approved ignition plan.

307.4.2 Amend this section in its entirety, **Outdoor Fireplaces.** Outdoor fireplaces shall be used in accordance with the manufacturer's instructions. Outdoor fireplaces shall not be placed closer to combustibles than stated in the manufacturer's instructions and if the manufacturer's instructions are not available, or do not establish a distance, they shall not be operated within 15 feet of a structure or combustible material. Outdoor fireplaces shall not be operated underneath the structure of any type.

308.1.4 Amend this section to read **Outdoor Cooking Devices.** Charcoal burners and other open-flame cooking devices shall not be operated on combustible balconies or within 15 feet (4572 mm) of combustible construction.

Exceptions:

1. One- and two-family dwellings;
2. Where buildings, balcony, and decks are protected by an automatic sprinkler system
3. LP-gas cooking devices having LP-gas container with a water capacity not greater than 48 pounds [nominal 20 pounds (9.1 kg) LP-gas capacity].
4. Where a more restrictive code, policy, ordinance, or covenant exists.

308.1.6.3 Amend this section to read **Sky lanterns.** The use of sky lanterns, tethered or untethered, is prohibited.

311.2.2 Amend this section to read **Fire protection.** Fire alarm, sprinkler and stand-pipe systems shall be maintained in an operable condition at all times.

Exceptions:

1. Where the premises have been cleared of all combustible materials and debris and, in the opinion of the fire code official, the type of construction,

fire separation distance and security of the premises do not create a fire hazard.

2. Where approved by the fire code official, buildings that will not be heated and where fire protection systems will be exposed to freezing temperatures, fire alarm and sprinkler systems are permitted to be placed out of service and standpipes are permitted to be maintained as dry systems (without an automatic water supply), provided that the building does not have contents or storage, and windows, doors and other openings are secured to prohibit entry by unauthorized persons.
3. LP-gas cooking devices having LP-gas container with a water capacity not greater than 48 pounds [nominal 20 pounds (9.1 kg) LP-gas capacity].
4. Where approved by the fire code official, fire alarm and sprinkler systems are permitted to be placed out of service in seasonally occupied buildings: that will not be heated; where fire protection systems will be exposed to freezing temperatures; where fire areas do not exceed 6,000 square feet (557.42 m²); and/or that do not store motor vehicles or hazardous materials.

315.3.3 Amend this section to read **Equipment rooms**. Combustible material shall not be stored in boiler rooms, mechanical rooms, ~~or~~ electrical equipment rooms, and other rooms where a potential ignition source exists, as determined by the fire code official.

319.1 Amend this section to read **General**. Mobile food preparation vehicles that are equipped with cooking appliances shall comply with this section.

319.4.1 Amend this section to read **Fire protection for cooking appliances**. Cooking appliances that produce smoke or grease-laden vapors shall be protected by automatic fire extinguishing systems in accordance with Section 904.12.

319.8 Amend this section to read **LP-gas systems**. Where LP-gas systems provide fuel for such systems shall comply with Chapter 61 and Sections 319.8.1 through 319.8.5.

505.1 Amend this section to read **Address identification**. New and existing buildings shall have approved address numbers, building numbers or approved building identification placed in a position that is plainly legible and visible from the street or road fronting the property. These numbers shall contrast with their background. Where required by the fire code official, address numbers shall be provided in additional approved locations to facilitate emergency response. Address numbers shall be Arabic numerals or alphabet letters. Numbers shall be a minimum of 6 inches (127 mm) high, unless otherwise approved, with a minimum stroke width of 1 inch (12.7 mm). Where access is by means of a private road and the building cannot be viewed from the public way, a monument, pole or sign or means shall be used to identify the structure. Address numbers shall be maintained.

503.1 Amend this section in its entirety **Where required**. Fire apparatus access roads shall be provided and maintained in accordance with Sections 503.1 through 503.1.3 and Appendix D "Fire Apparatus Access Roads."

503.2 Amend this section in its entirety **Specifications.** Fire apparatus access roads shall be installed an arranged in accordance with Sections 503,2.1 through 503.2.8 and Appendix D "Fire Apparatus Access Roads.

503.2.1 Amend this section in its entirety **Dimensions.** Fire apparatus access roads shall have an unobstructed width of not less than 20 feet, exclusive of shoulders, except for proved security gates in accordance with section 503.6, and in unobstructed vertical clearance of not less than 14 feet.

505.1 Amend this section in its entirety **Address Identification.** New and existing buildings or facilities shall be provided with approved address identification. The address identification shall be legible and placed in a position that is visible from the street or road fronting the property. Address identification characters shall contrast with their background. Address numbers shall be in Arabic numbers or alphabetic letters. Numbers shall not be spelled out. Address identification shall be maintained.

501.1.1 Addresses shall be assigned by the governmental entity having jurisdiction, (Town of Wellington), and shall comply with Larimer County Street Naming an Addressing Standards as contained in the Larimer County Urban Area Street standards.

505.1.4 Amend this section in its entirety. The address numerals for one- and two- family dwellings shall be a minimum of 6 inches posted on a contrasted background. If bronze or brass numerals are used, they shall only be posted on a black background for visibility.

505.15 Amend this section in its entirety Monument signs may be used in lieu of address numerals on the building as approved by the fire code official.

505.16 Amend this section in its entirety. Buildings with multiple suites, apartments or unit shall have the individual suites, apartments or units provided with individual identification numbers in sequential order. Suits, apartments or units located on the first floor shall be identified by numbers within the 100 or 1000 range series; suites, apartments or units located on the 2nd floor shall be identified by numbers within the 200 or 2000 range series; suites, apartment or units located on the 3rd floor unit shall be identified by numbers within the 300 or 3000 range or series. Higher floors shall follow the same numbering sequence.

505.17 Amend this section in its entirety Buildings, either individually or part of a multi building complex, that have emergency access lanes on sides other than on the address street side, shall have the address numbers in street name on each side that fronts the fire line.

505.1.8 Amend this section in its entirety. Buildings that are addressed on one street, but are accessible from an adjoining street, shall have the address numbers in street name on each side that is adjacent to that other street.

505.1.9 Amend this section in its entirety. Approved signage shall be provided inconspicuous locations within buildings to provide clear direction to locate any suite, apartment or unit within the building.

505.1.10 Amend this section in its entirety. Multiple building complexes shall be provided with approved signage as needed to direct first responders to individual buildings.

507.2 Amend this section in its entirety **Types of water supply.** A water supply shall consist of pressure tanks, elevated tanks, water mains or other fixed systems capable of providing the required sustainable flow.

507.5 Amend this section in its entirety **Fire hydrant systems.** Fire hydrant system shall comply with sections 507.5.1 through 507.5.6 and Appendix C

607.5 Amend this section in its entirety. **Solid-Fuel Fired Appliances.** Solid fuel commercial cooking appliances shall comply with applicable provisions of the National Fire Protection Association (NFPA).

701.2.2 Add section to read **Fire-resistance-rated labeling.** The fire-resistance rating shall be marked in an approved manner on the following fire resistance rated construction features:

1. Structural members
2. Exterior walls
3. Fire walls, fire barriers, fire partitions
4. Horizontal assemblies
5. Shaft enclosures

701.3.1 Add section to read **Smoke barriers labeling.** The fire-resistance rating and smoke-resistant characteristics of smoke barriers shall be marked in an approved manner on the rated construction feature.

901.4.2 Amend this section to read **Nonrequired fire protection systems.** A fire protection system or portion thereof not required by this code, or the International Building Code, or the International Residential Code shall be the applicable requirements of this code, the International Building Code, and the International Residential Code.

901.4.3 Amend this section to read **Fire areas.** Where buildings, or portions thereof, are divided into fire areas so as not to exceed the limits established for requiring a fire protection system in accordance with this chapter, such fire areas shall be separated by fire walls constructed in accordance with the International Building Code or horizontal assemblies constructed in accordance with the International Building Code, or both, having a fire-resistance rating of not less than that determined in accordance with the International Building Code.

901.7 Amend this section to read **Systems out of service.** Where a required fire protection system is out of service, the fire department shall be notified immediately and

where required by the fire department, the building shall either be evacuated or an approved fire watch shall be provided for all occupants left unprotected by the shutdown until the fire protection system has been returned to service.

901.9 Amend this section to read **Termination of monitoring services.** For fire protection systems required to be monitored by the authority having jurisdiction, notice shall be made to the fire code official whenever system monitoring services are terminated. Notice shall be made in writing, to the fire code official by the provider of the monitoring service being terminated.

903.2.1 Amend this section to read an automatic sprinkler system shall be provided throughout buildings as Group A occupancies as provided in this section.

903.2.1.1 Amend this section to read **Group A-1.** 903.2.1.1 **Group A-1.** An automatic sprinkler system shall be provided throughout buildings containing Group A-1 occupancies where one of the following conditions exists:

1. The fire area exceeds 6,000 square feet (1115 557 m²).
2. The fire area has an occupant load of 50 or more.

903.2.1.2 Amend this section to read **Group A-2.** An automatic sprinkler system shall be provided throughout buildings containing Group A-2 occupancies

1. The fire area exceeds 5,000 square feet (464 m²).
2. The fire area has an occupant load of 50 or more.

903.2.1.3 Amend this section to read **Group A-3.** An automatic sprinkler system shall be provided throughout buildings containing Group A-3 occupancies where one of the following conditions exists:

1. The fire area exceeds 6,000 square feet (557 m²).
2. The fire area has an occupant load of 50 or more.

903.2.1.4 Amend this section to read **Group A-4.** An automatic sprinkler system shall be provided throughout buildings containing Group A-4 occupancies where one of the following conditions exists:

1. The fire area exceeds 6,000 square feet (557 m²).
2. The fire area has an occupant load of 50 or more.

903.2.1.6 Amend this section to read **Assembly occupancies on roofs.** Where an occupied roof has an assembly occupancy with an occupant load exceeding 50 for Group A occupancies, an automatic sprinkler system shall be provided throughout buildings in accordance with Section 903.3.1.1 or 903.3.1.2.

903.2.1.7 Amend this section to read **Multiple fire areas.** An automatic sprinkler system shall be provided where multiple fire areas of Group A-1, A-2, A-3 or A-4 occupancies share exit or exit access components and the combined occupant load of these fire areas is 50 or more.

903.2.2 Amend this section to read **Ambulatory care facilities.** An automatic sprinkler system shall be installed throughout the entire building containing an ambulatory care facility where either of the following conditions exist at any time:

1. Four or more care recipients are incapable of self-preservation.
2. One or more care recipients that are incapable of self-preservation are located at other than the level of exit discharge serving such a facility.

903.2.3 Amend this section to read **Group E.** An automatic sprinkler system shall be provided for Group E occupancies as follows:

1. Throughout all Group E fire areas greater than 6,000 square feet (557 m²) in area.
2. The Group E fire area is located on a floor other than a level of exit discharge serving such occupancies.
3. The Group E fire area has an occupant load of 50 or more.

903.2.4 Amend this section to read **All Group F-1.** An automatic sprinkler system shall be provided throughout all buildings containing a Group F-1 occupancy where one of the following conditions exists:

1. A Group fire area exceeds 6,000 square feet (557 m²).
2. A Group fire area is located more than two stories above grade plane.
3. The combined area of all Group fire areas on all floors, including any mezzanines, exceed 6,000 square feet (557 m²).
4. A Group occupancy used for the manufacture of upholstered furniture or mattresses exceeds 2,500 square feet (232 m²).

903.2.6 Amend this section to read **Group I.** An automatic sprinkler system shall be provided throughout buildings with a Group I fire area

Exceptions:

1. An automatic sprinkler system installed in accordance with Section 903.3.1.2 shall be permitted in Group I-1, Condition 1 facilities.
2. An automatic sprinkler system is not required where Group I-4 daycare facilities are at the level of exit discharge and where every room where care is provided has not fewer than one exterior exit door.
3. In buildings where Group I-4 daycare is provided on levels other than the level of exit discharge, an automatic sprinkler system in accordance with Section 903.3.1.1 shall be installed.

903.2.7 Amend this section to read **Group M.** An automatic sprinkler system shall be provided throughout buildings containing a Group M occupancy where one of the following conditions exists:

1. A Group M fire area exceeds 6,000 square feet (557 m²).
2. A Group M fire area is located more than two stories above grade plane.
3. The combined area of all Group M fire areas on all floors, including any mezzanines, exceeds 6,000 square feet (557 m²).

4. A Group M occupancy used for the display and sale of upholstered furniture or mattresses exceeds 5,000 square feet (464 m²).

903.2.9 Amend this section to read **Group S-1**. An automatic sprinkler system shall be provided throughout all buildings containing a Group S-1 occupancy where one of the following conditions exists:

1. A Group S-1 fire area exceeds 6,000 square feet (557 m²).
2. A Group S-1 fire area is located more than two stories above grade plane.
3. The combined area of all Group S-1 fire areas on all floors, including any mezzanines, exceeds 6,000 square feet (557 m²).
4. A Group S-1 fire area used for the storage of commercial motor vehicles where the fire area exceeds 5,000 square feet (464 m²).
5. A Group S-1 occupancy used for the storage of upholstered furniture or mattresses exceeds 2,500 square feet (232 m²).

903.2.9.1 Amend this section to read **Repair garages**. An automatic sprinkler system shall be provided throughout all buildings used as repair garages in accordance with Section 406.8 of the International Building Code, as shown:

1. Buildings having two or more stories above grade plane, including basements, with a fire area containing a repair garage exceeding 6,000 square feet (557 m²).
2. Buildings not more than one story above grade plane, with a fire area containing a repair garage exceeding 6,000 square feet (557 m²).
3. Buildings with repair garages servicing vehicles parked in basements.
4. A Group S-1 fire area used for the repair of commercial motor vehicles where the fire area exceeds 5,000 square feet (464 m²).

4 903.2.9.2 Amend this section to read Bulk storage of tires. Buildings and structures where the area for the storage of tires exceeds 10,000 cubic feet (566 283 m³) shall be equipped throughout with an automatic sprinkler system in accordance with Section 903.3.1.1.

1. Where the fire area of the enclosed parking garage exceeds 6,000 square feet (557 m²).
2. Where the enclosed parking garage is located beneath other groups.

Exception: Enclosed parking garages located beneath Group R-3 occupancies.

903.2.10 Amend this section to read **Group S-2 enclosed parking garages**. An automatic sprinkler system shall be provided throughout buildings classified as enclosed parking garages in accordance with Section 406.6 of the International Building Code where either of the following conditions exists:

1. Where the fire area of the enclosed parking garage exceeds 6,000 square feet (557 m²).
2. Where the enclosed parking garage is located beneath other groups.

Exception: Enclosed parking garages located beneath Group R-3 occupancies.

903.2.11.1 Amend this section to read **Stories without openings**. An automatic sprinkler system shall be installed throughout all buildings, including basements, where the floor area of the story exceeds 1,500 square feet (139 m²) and where the story does not comply with the following criteria for exterior wall openings:

1. Openings below grade that lead directly to ground level by an exterior stairway complying with Section 1011 or an outside ramp complying with Section 1012. Openings shall be located in each 50 linear feet (15 240mm), or fraction thereof, of exterior wall in the story on not fewer than one side. The required openings shall be distributed such that the lineal distance between adjacent openings does not exceed 50 feet (15 240 mm).
2. Openings entirely above the adjoining ground level totaling not less than 20 square feet (1.86 m²) in each 50 linear feet (15 240 mm), or fraction thereof, of exterior wall in the story on not fewer than one side. The required openings shall be distributed such that the lineal distance between adjacent openings does not exceed 50 feet (15 240 mm). The height of the bottom of the clear opening shall not exceed 44 inches (1118 mm) measured from the floor.

903.2.11.1.2 Amend this section to read **Openings on one side only**. Where openings in a story are provided on only one side and the opposite wall of such story is more than 75 feet (22 860 mm) from such openings, the building shall be equipped throughout with an approved automatic sprinkler system, or openings shall be provided on not fewer than two sides of the story.

903.2.11.1.3 Amend this section to read **Basements**. Where any portion of a basement is located more than 75 feet (22 860 mm) from openings required by Section 903.2.11.1, or where walls, partitions or other obstructions are installed that restrict the application of water from hose streams, the building shall be equipped throughout with an approved automatic sprinkler system.

903.2.13 Add a new section to read **Group B or Mixed Occupancies**. An automatic sprinkler system shall be provided throughout all buildings containing Group B or mixed occupancies where one of the following conditions exists:

1. The fire area exceeds 6,000 sq. ft. (577 m²).
2. Where the combined fire areas of Group B and mixed occupancies on all floors including mezzanines and basements is greater than 6,000 sq. ft. (577 m²).

903.2.14 Add a new section to read **Buildings Constructed under the International Residential Code**. An automatic sprinkler system installed in accordance with Section 903.3.1.3 shall be provided throughout all multiple (three or more) attached single-family dwellings (townhouses), complying with the requirements of the International Residential Code.

Exception: Unless otherwise required by more restrictive local codes, policies, amendments, ordinances, or plat note.

903.3.1.3 Amend this section to read **NFPA 13D sprinkler systems.** Automatic sprinkler systems installed in one- and two-family dwellings; Group R-3; Group R-4, Condition 1; and townhouses shall be permitted to be installed throughout in accordance with NFPA 13D and local codes, ordinances, and policies.

903.3.8 Amend this section to read **Limited area sprinkler systems.** Limited area sprinkler systems as required in the International Residential Code shall be in accordance with the standards listed in Section 903.3.1 except as provided in Sections 903.3.8.1 through 903.3.8.5.

903.4 Amend this section to read **Sprinkler system supervision and alarms.** Valves controlling the water supply for automatic sprinkler systems, pumps, tanks, water levels and temperatures, critical air pressures and waterflow switches on all sprinkler systems shall be electrically supervised by a listed fire alarm control unit.

Exceptions:

1. Automatic sprinkler systems valves, pumps, and tanks in one- and two-family dwellings.
4. Jockey pump control valves that are sealed or locked in the open position.
6. Valves controlling the fuel supply to fire pump engines that are sealed or locked in the open position.
7. Trim valves to pressure switches in dry, preaction and deluge sprinkler systems that are sealed or locked in the open position.

907.20.6 Amend this section to add **Excessive Fire Alarms.** An excessive number of false alarms shall be defined as two (2) alarm activations for a fire alarm system within a 60-day period provided that any such activations are not the result of a cause reasonably beyond the control of the owner, tenant or operator of the building. In the event of an excessive number of false alarms, the fire code official may order the building owner, tenant or operator of the building, or party responsible for the building to take reasonable actions necessary to prevent false alarms. These actions may include repair or replacement of the faulty alarm components, addition of tamper proof devices, modification of system design, and repair of other building components which affect alarm system performance. The fire code official may also require the building owner, tenant or operator or party responsible for the building to obtain an approved maintenance contract with a qualified fire alarm maintenance technician as required by NFPA 72 to provide continuous maintenance service of the system.

907.6.6 Amend this section to read **Monitoring.** Fire protection systems required by this chapter, ~~or~~ by the International Building Code, or by the International Residential Code shall be monitored by an approved supervising station in accordance with NFPA 72.

Exception: Monitoring by a supervising station is not required for:

1. Single- and multiple-station smoke alarms required by Section 907.2.10.
2. Smoke detectors in Group I-3 occupancies.
3. Automatic sprinkler systems in one- and two- family dwellings.

915.1 Amend this section to read **General**. Carbon monoxide detection shall be installed in new buildings in accordance with Sections 915.1.1 through 915.6 and in accordance with State Statute. Carbon monoxide detection shall be installed in existing buildings in accordance with Section 1103.9 and in accordance with State Statute.

1010.1.9.4 Amend this section to read **Locks and latches**. Locks and latches shall be permitted to prevent operation of doors where any of the following exist:

1. Places of detention or restraint.
2. In buildings in occupancy Group A having an occupant load of ~~300 or~~ less than 50, Groups B, F, M and S, and in places of religious worship, the main door or doors are permitted to be equipped with key-operated locking devices from the egress side provided:
 - 2.1. The locking device is readily distinguishable as locked.
 - 2.2. A readily visible, durable sign is posted on the egress side on or adjacent to the door stating:
THIS DOOR TO REMAIN UNLOCKED DURING BUSINESS HOURS.
(The sign shall be in letters 1 inch (25 mm) high on a contrasting background.)
 - 2.3. The use of the key-operated locking device is revocable by the fire code official for due cause.
3. Where egress doors are used in pairs, approved automatic flush bolts shall be permitted to be used, provided that the door leaf having the automatic flush bolts does not have a doorknob or surface-mounted hardware.
4. Doors from individual dwelling or sleeping units of Group R occupancies having an occupant load of 10 or less are permitted to be equipped with a night latch, dead bolt or security chain, provided such devices are openable from the inside without the use of a key or tool.
5. Fire doors after the minimum elevated temperature has disabled the unlatching mechanism in accordance with listed fire door test procedures.
6. Doors serving roofs not intended to be occupied shall be permitted to be locked, preventing entry to the building from the roof.

1015.8. *Window Openings* first paragraph ONLY is hereby amended to read as follows

1015.8 Window Openings. Windows in group R2 and R3 buildings including dwelling units, where the top of the sill of an operable window opening is located less than 24 inches above the finish floor and more than 72 inches above the finished grade or other surface below on the exterior of the building, shall comply with one of the following:

1031.10 Emergency lighting equipment inspection and testing. Emergency lighting shall be maintained in accordance with Section 1008 and shall be inspected and tested in accordance with Sections 1031.10.1 and 1031.10.2.

1103.5 Amend this section to read **Sprinkler systems**. An automatic sprinkler system shall be provided in existing buildings in accordance with Sections 1103.5.1 through 1103.5.5.

1103.5.5 Add a new section to read **Additions and alterations to existing buildings.**

Existing buildings constructed prior to adoption of this code, with a fire area exceeding 6,000 square feet (577 m²), undergoing additions, alterations or remodel work shall be evaluated under the International Fire Code, for the need for additional fire protection. Portions of buildings separated by approved fire walls as outlined in Chapter 7, Section 707 of the 2012 edition of the International Building Code may be considered as separate buildings.

1103.5.5.1 Add a new section to read **Existing buildings with a fire area not exceeding 6,000 sq. ft. (577 m²).** An automatic sprinkler system shall be provided throughout a building undergoing an addition and/or alteration work whose new aggregate fire area of the building exceeds 5,000 square feet (464 m²).

1103.5.5.2 Add a new section to read **Existing buildings with a fire area exceeding 6,000 sq. ft. (577 m²).** An automatic sprinkler system shall be provided throughout a building undergoing addition work that increases the fire area of the existing building.

1103.5.5.3 Add a new section to read **Alterations to existing buildings with a fire area exceeding 6,000 sq. ft. (577 m²).** An automatic sprinkler system shall be provided throughout a building when the area undergoing alterations equals or exceeds 50% of the aggregate fire area of the building.

Exception: Alterations limited to the removal and replacement or the covering of existing materials, elements, equipment, or fixtures using the same materials, elements, equipment or fixtures that serve the same purpose.

1103.6.1 Amend this section to read **Existing multi-story buildings.** Existing buildings with occupied floors located more than 40 feet (12192 mm) above the lowest level of fire department access or more than 40 feet (12192 mm) below the highest level of fire department access shall be equipped with standpipes.

1103.9 Amend this section to read **Carbon monoxide alarms.** Carbon monoxide alarms shall be installed in existing dwelling units and sleeping units where those units include any of the conditions identified in Sections 915.1 through 915.1.6. The carbon monoxide alarms shall be installed in the locations specified in Section 915.2 and the installation shall be in accordance with Section 915.4.

2403.2.7 Amend this section to read **Welding warning signs.** Welding, cutting and similar spark-producing operations shall not be conducted in or adjacent to flammable vapor areas or dipping or coating operations unless precautions have been taken to provide safety. Conspicuous signs with the following warning shall be posted in the vicinity of flammable vapor areas, dipping operations and paint storage rooms:

NO WELDING
THE USE OF WELDING OR

SIMILAR SPARK-PRODUCING
EQUIPMENT IN OR NEAR THIS AREA
IS DANGEROUS BECAUSE OF FIRE
AND EXPLOSION HAZARDS. WELDING
AND CUTTING SHALL BE DONE ONLY
UNDER THE SUPERVISION OF THE
PERSON IN CHARGE.

3103.2 Amend this section to read **Approval required.** Tents and membrane structures having an area in excess of 200 square feet (19 m²) shall not be erected, operated or maintained for any purpose without first obtaining a permit and approval from the fire code official.

Exception:

1. Tents used exclusively for recreational camping purposes.

3103.6 Amend this section to read **Construction documents.** A detailed site and floor plan for tents or membrane structures shall be provided with each application for approval. The tent or membrane structure floor plan shall indicate details of the *means of egress* facilities, seating capacity, arrangement of the seating and location and type of heating and electrical equipment. See fire code official for additional local requirements.

3105.2 Amend this section to read **Approval.** Temporary special event structures shall not be erected, operated or maintained for any purpose without first obtaining approval and a permit from the fire code official and the building official.

.5001.1 Amend this section to read **Scope.** Prevention, control and mitigation of dangerous conditions related to storage, dispensing, use and handling of hazardous materials shall be in accordance with this chapter. This chapter shall apply to all hazardous materials, including those materials regulated elsewhere in this code, except that where specific requirements are provided in other chapters, those specific requirements shall apply in accordance with the applicable chapter. Where a material has multiple hazards, all hazards shall be addressed.

1. In retail or wholesale sales occupancies, the quantities of medicines, foodstuff or consumer products and cosmetics containing not more than 50 percent by volume of water-miscible liquids and with the remainder of the solutions not being flammable shall not be limited, provided that such materials are packaged in individual containers not exceeding 1.3 gallons (5 L).
2. Quantities of alcoholic beverages in retail or wholesale sales occupancies shall not be limited providing the liquids are packaged in individual containers not exceeding 1.3 gallons (5 L).
3. Application and release of pesticide and agricultural products and materials intended for use in weed abatement, erosion control, soil amendment or similar applications where applied in accordance with the manufacturers' instructions and label directions.

4. The off-site transportation of hazardous materials where in accordance with Department of Transportation (DOT) regulations.
5. Building materials not otherwise regulated by this code.
6. Refrigeration systems (see Section 605).
7. Stationary storage battery systems regulated by Section 1206.2.
8. The display, storage, sale or use of fireworks and explosives in accordance with Chapter 56.
9. Corrosives utilized in personal and household products in the manufacturers' original consumer packaging in Group M occupancies.
10. The storage of wines in wooden barrels and casks.
11. The use of wall-mounted dispensers containing alcohol-based hand rubs classified as Class I or II liquids where in accordance with Section 5705.5.

5104.2.2 Amend this section to read **Aerosol cooking spray products**. Storage of aerosol cooking spray products in A, B, E, F, M, and R occupancies shall not be more than 1,000 pounds (454 kg) net weight.

5704.2.9.6.1 Locations where above ground tanks are prohibited. Storage of Class I and II liquid's in above ground tanks I said buildings is prohibited in accordance with local land use code.

5704.3.3 Indoor storage. Storage of flammable and combustible liquid inside buildings containers in portable tank shall be in accordance with sections 5704.4.4.1 through 5704.3.3.10 unless otherwise required by more restrictive local codes, policies, amendments, ordinances, or plat.

Chapter 80 amend this section to read Referenced Standards add NFPA 1—2015 Fire Code Chapter 38. The following appendices will be part of the adoption as amended.

Appendix A is hereby adopted in its entirety:

Appendix B is deleted in its entirety and readopted to read as follows:

APPENDIX B FIRE-FLOW REQUIREMENTS FOR BUILDINGS

SECTION B101 GENERAL

B101.1 Scope. The procedure for determining fire-flow requirements for buildings or portions of buildings hereafter constructed shall be in accordance with this appendix. This appendix does not apply to structures other than buildings.

SECTION B102 DEFINITIONS

B102.1 Definitions. For the purpose of this appendix, certain terms are defined as follows:

FIRE-FLOW. The flow rate of a water supply, measured at 20 pounds per square inch (psi) (138 kPa) residual pressure, that is available for firefighting.

FIRE-FLOW CALCULATION AREA. The floor area, in square feet (m²), used to determine the required fire flow.

SECTION B103 MODIFICATIONS

B103.1 Decreases. The fire chief is authorized to reduce the fire-flow requirements for isolated buildings or a group of buildings in rural areas or small communities where the development of full fire-flow requirements is impractical.

B103.2 Increases. The fire chief is authorized to increase the fire-flow requirements where conditions indicate an unusual susceptibility to group fires or conflagrations. An increase shall not be more than twice that required for the building under consideration.

B103.3 Areas without water supply systems. For information regarding water supplies for fire-fighting purposes in rural and suburban areas in which adequate and reliable water supply systems do not exist, the fire code official is authorized to utilize NFPA 1142 or the *International Wildland-Urban Interface Code*.

SECTION B104 FIRE-FLOW CALCULATION AREA

B104.1 General. The fire-flow calculation area shall be the total floor area of all floor levels within the exterior walls, and under the horizontal projections of the roof of a building, except as modified in Section B104.3.

B 104.2 Area separation. Portions of buildings which are separated by fire walls without openings, constructed in accordance with the International Building Code, are allowed to be considered as separate fire-flow calculation areas.

B104.3 Type 1A and Type 1B construction. The fire-flow calculation area of buildings constructed of Type 1A and Type 1B construction shall be the area of the three largest successive floors.

Exception:

Fire-flow calculation area for open parking garages shall be determined by the area of the largest floor.

SECTION B105 FIRE-FLOW REQUIREMENTS FOR BUILDINGS

B105.1 One- and two-family dwellings. The minimum fire-flow requirements for one- and two-family dwellings shall be 1,000 gallons per minute in urban areas and 500 gallons per minute in rural areas.

Exception:

A reduction in required fire flow of 50 percent, as approved, is allowed when the building is provided with an approved automatic sprinkler system.

B105.2 Buildings other than one- and two-family dwellings. The minimum fire-flow and flow duration for buildings other than one- and two-family dwellings shall be as specified in Table B105.

TABLE B105

APPLICATION	FIRE FLOW REQUIREMENTS (gpm)	SPACING BETWEEN HYDRANTS (feet) ^{a,b,c}	MAXIMUM DISTANCE FROM THE CLOSEST POINT ON A BUILDING TO A HYDRANT (feet)
Commercial	1,500	600	300 ^d
Urban -- One and Two Family Dwelling	1,000	800	400
Rural -- One and Two Family Dwelling	500	800	400

- a. Reduce by 100 feet for dead-end streets or roads.
- b. Where streets are provided with median dividers that cannot be crossed by fire fighters pulling hose lines, or are arterial streets, hydrant spacing shall average 500 feet on each side of the street and be arranged on an alternating basis.
- c. Where new water mains are extended along streets where hydrants are not needed for protection of structures or similar fire problems, fire hydrants shall be provided at spacing not to exceed 1,000 feet to provide for transportation hazards.
- d. For buildings equipped with a standpipe, see Section 507.5.1.1.

B105.3 Water supply for buildings equipped with an automatic sprinkler system. For buildings equipped with an approved automatic sprinkler system, the water supply shall be capable of providing the greater of:

1. The automatic sprinkler system demand, including hose stream allowance.
2. The required fire-flow.

SECTION B106 REFERENCED STANDARDS

- ICC IBC—15 International Building Code B104.2,
- ICC IFC --- 15 International Fire Code Table B105.1(1) & B105.2
- ICC IWUIC—15 International Wildland-Urban Interface Code B103.3
- ICC IRC --- 15 International Residential Code Table B105.1(1)
- NFPA 1142—12 Standard on Water Supplies for Suburban and Rural Fire Fighting B103.3

Appendix C is deleted in its entirety and readopted to read as follows:

**APPENDIX C
FIRE HYDRANT LOCATIONS AND DISTRIBUTION**

SECTION C101 GENERAL

C101.1 Scope. Fire hydrants shall be provided in accordance with this appendix for the protection of buildings, or portions of buildings, hereafter constructed or moved into the jurisdiction.

SECTION C102 LOCATION

C102.1 Fire hydrant locations. Fire hydrants shall be provided along required fire apparatus access roads and adjacent public streets.

SECTION C103 NUMBER OF FIRE HYDRANTS

C103.1 Fire hydrants available. The number of fire hydrants available to a complex or subdivision shall not be less than that determined by spacing requirements listed in Table B105 when applied to fire apparatus access roads and perimeter public streets from which fire operations could be conducted.

SECTION C104 CONSIDERATION OF EXISTING FIRE HYDRANTS

C104.1 Existing fire hydrants. Existing fire hydrants on public streets are allowed to be considered as available. Existing fire hydrants on adjacent properties shall not be considered available unless fire apparatus access

roads extend between properties and easements are established to prevent obstruction of such roads.

SECTION C105 DISTRIBUTION OF FIRE HYDRANTS

C105.1 Hydrant spacing. The average spacing between fire hydrants shall not exceed that listed in Table B105.

Exception:

The fire chief is authorized to accept a deficiency of up to 10 percent where existing fire hydrants provide all or a portion of the required fire hydrant service.

Regardless of the average spacing, fire hydrants shall be located such that all points on streets and access roads adjacent to a building are within the distances listed in Table B105.”

Appendix D is deleted in its entirety and readopted to read as follows.

APPENDIX D FIRE APPARATUS ACCESS ROADS

SECTION D101 GENERAL

D101.1 Scope. Fire apparatus access roads shall be in accordance with this appendix and all other applicable requirements of the *International Fire Code*.

SECTION D102 REQUIRED ACCESS

D102.1 Access and loading. Facilities, buildings or portions of buildings hereafter constructed shall be accessible to fire department apparatus by way of an approved fire apparatus access road with an asphalt, concrete or other approved driving surface capable of supporting the imposed load of fire apparatus weighing at least 80,000 pounds (36,287 kg).

D102.2 Access road construction. All access roadways must be all weather driving surfaces capable of supporting fire apparatus. Surface shall be asphalt, concrete, or compacted road base and engineered for the imposed loads.

D102.2.1 Temporary emergency access. Compacted road base or chip shall only be used for a temporary emergency access. Temporary access shall be available as long as the site is under construction. Thereafter permanent fire lanes shall be accessible and unobstructed at all times.

D102.2.2 Permanent emergency access. All permanent points of access shall be hard decks consisting of asphalt or concrete designed to HS 20 or support 40 tons (36,287 kg). Compacted road base or other surfaces engineered and capable of supporting the imposed loads may be approved for ground mounted solar installations, cell towers and similar isolated facilities and structures when approved by the fire code official.

D102.2.2 Installation timing. All required access roads must be installed and serviceable before aboveground construction begins.

SECTION D103 MINIMUM SPECIFICATIONS

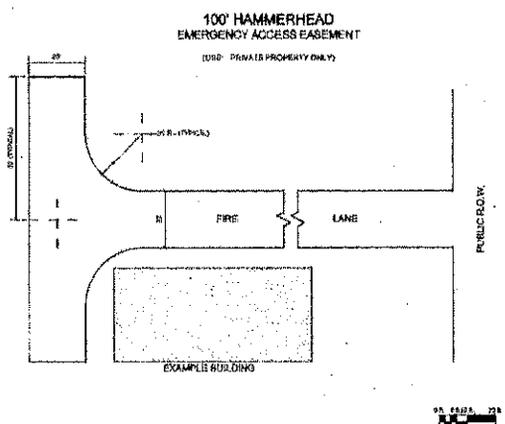

D103.1 Access road width with a hydrant. Where a fire hydrant is located on a fire apparatus access road, the minimum road width shall be 26 feet (7,925 mm) exclusive of shoulders.

D103.2 Grade. Fire apparatus access roads shall not exceed 10 percent in grade. Exception: Grades steeper than 10 percent as approved by the fire code official. (See section D105.5 for aerial fire apparatus access roads.)

D103.3 Turning radius. The minimum turning radius shall be 25 feet inside radius and 50 feet outside radius.

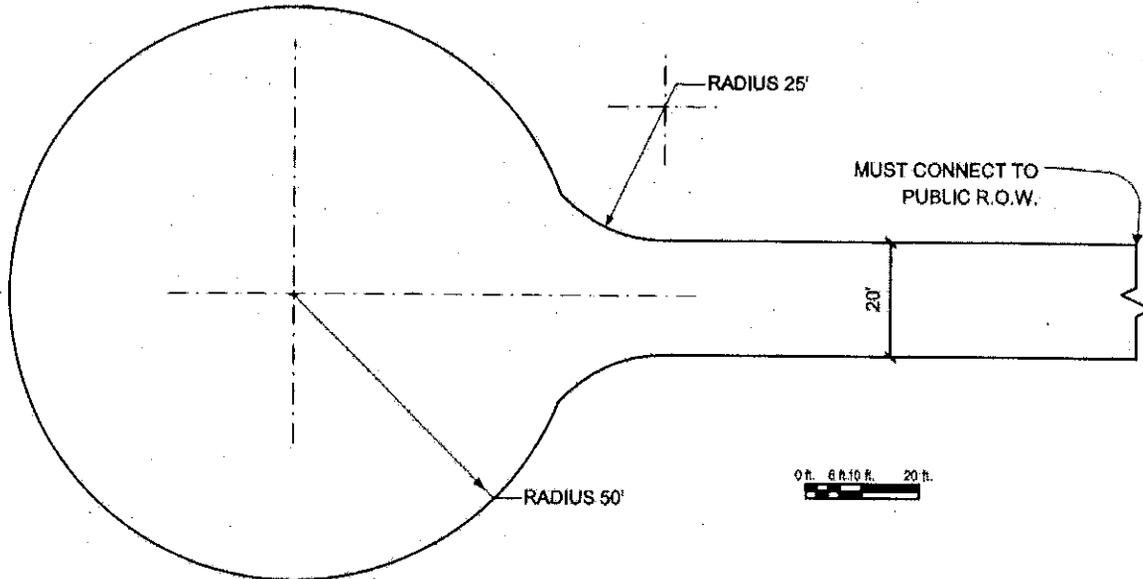

D103.4 Angle of Approach/Departure. Grade changes upon a Fire Apparatus Access Road or when entering or exiting from or to a Fire Apparatus Access Road shall not exceed a 10 percent Angle of Approach or Angle of Departure.

Figure 103.1

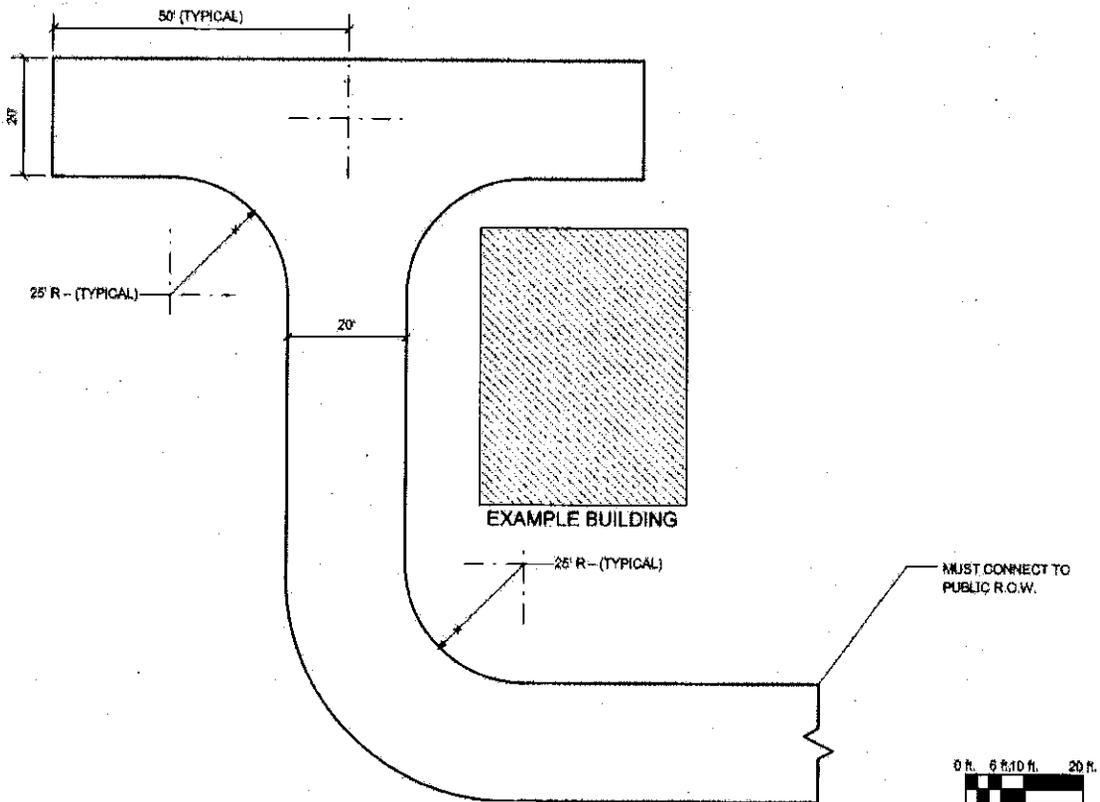

100' DIAMETER CUL-DE-SAC

FOR USE ON PUBLIC OR PRIVATE PROPERTY

ALTERNATIVE HAMMERHEAD EMERGENCY ACCESS EASEMENT (FIRE LANE)

USE: PRIVATE PROPERTY ONLY

D103.5 Dead ends. Dead-end fire apparatus access roads in excess of 150 feet (46 m) shall be provided with width and turnaround provisions in accordance with Table D103.4.

TABLE 103.4
REQUIREMENTS FOR DEAD-END FIRE APPARATUS ACCESS ROADS

LENGTH(feet)	WIDTH(feet)	TURNAROUNDS REQUIRED
0-150	20	None required
151-660	20	100-foot hammerhead, 100-foot Cul-de-sac in accordance with Figure D103.1
Over 660	Special Approval Required	

D103.5.1 Second Point of Access Required. A second point of access shall be required when the primary access roadway exceeds 660 feet (201 m) in length.

Exception: Where all dwelling units beyond 660 feet (201 m) are equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3.3, access from two directions shall not be required.

D103.5.2 Third Point of Access Required. A third point of access will be required when any access road exceeds a distance of 1320 feet (1/4 mile) (402 m) in length.

Exception: Where all dwelling units beyond 660 feet (201 m) are equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3.3, access from only two directions shall be required.

D103.5.3 Fourth Point of Access Required. A fourth point of access will be required when access road exceeds a distance of 2640 feet (1/2 mile) (804 m) in length.

Exception: Where all dwelling units beyond 660 feet (201 m) are equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3.3, access from only three directions shall be required.

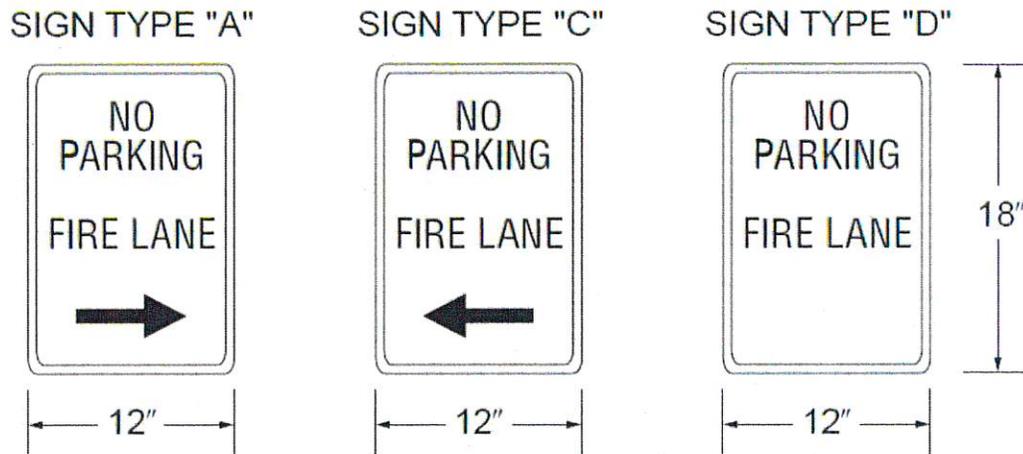

D103.5.4 Access location. Where two or more points of access are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum

overall diagonal dimension of the property or area to be served, measured in a straight line.

D103.6 Fire apparatus access road gates. Gates securing the fire apparatus access roads shall comply with all of the following criteria:

1. Where a single gate is provided, the gate width shall be not less than 20 feet (6,096 mm). Where a fire apparatus road consists of a divided roadway, the gate shall be not less than 12 feet (3,658 mm).
2. Gates shall be of the swinging or sliding type.
3. Construction of gates shall be of materials that allow manual operation by one person.
4. Gate components shall be maintained in an operative condition at all times and replaced or repaired when defective.
5. Electric gates shall be equipped with a means of opening the gate by fire department personnel for emergency access. Emergency opening devices shall be approved by the fire code official.
6. Methods of locking the gate shall be approved by the *fire code official*.
7. Manual opening gates shall not be locked with a padlock or chain and padlock unless the padlock is approved by the fire code official and is compatible with the approved Key Boxes in use by the fire department.
8. Gate design and locking device specifications shall be submitted for approval by the fire code official prior to installation.
9. Electric gate operators, where provided, shall be listed in accordance with UL325.
10. Gates intended for automatic operation shall be designed, constructed and installed to comply with the requirements of ASTM F 2200.

D103.7 Signs. Where required by the fire code official, fire apparatus access roads shall be marked with permanent NO PARKING-FIRE LANE signs complying with Figure D 103.6 or other approved sign. Signs shall have a minimum dimension of 12 inches (305 mm) wide by 18 inches (457 mm) high and have red letters on a white reflective background. Signs shall be posted on one or both sides of the fire apparatus road as required by section D103.6.1 or D103.6.2.

**FIGURE D103.6
FIRE LANE SIGNS**

D103.7.1 Roads 20 to 26 feet in width. Fire lane signs as specified in D103.6 shall be posted on both sides of fire apparatus access roads that are 20 to 26 feet wide (6,096 to 7,925 mm).

D103.7.2 Roads more than 26 feet in width. Fire lane signs as specified in D103.6 shall be posted on one side of fire apparatus access roads more than 26 feet wide (7,925 mm) and less than 32 feet wide (9,754 mm).

D103.7.2 Minimum Overhead Clearance. Fire access roads shall have a minimum overhead clearance for the entire width of the access road of not less than 14 feet (4,267 mm).

SECTION D 104 COMMERCIAL AND INDUSTRIAL DEVELOPMENTS

D104.1 Buildings exceeding three stories or 30 feet in height. Buildings or facilities exceeding 30 feet (9,144 mm) or three stories in height shall have at least two means of fire apparatus access for each structure.

Exception: Buildings or facilities exceeding 30 feet (9,144 mm) or three stories in height may have a single approved fire apparatus access road when the buildings are equipped throughout with approved automatic sprinkler systems.

D104.2 Buildings exceeding 62,000 square feet in area. Buildings or facilities having a gross building area of more than 62,000 square feet (5,760 m²) shall be provided with two separate and approved fire apparatus access roads.

Exception: Projects having a gross building area of up to 124,000 square feet (II 520m²) that have a single approved fire apparatus access road when all buildings are equipped throughout with approved automatic sprinkler systems."

D104.3 Remoteness. Where two access roads are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum overall diagonal dimension of the lot or area to be served, measured in a straight line between accesses.

SECTION D105

AERIAL FIRE APPARATUS ACCESS ROADS

D105.1 Where required. Where the vertical distance between the grade plane and the highest roof surface exceeds 30 feet (9,144 mm), approved aerial fire apparatus access roads shall be provided. For purposes of this section, the highest roof surface shall be determined by measurement to the eave of a pitched roof, the intersection of the roof to the exterior wall, or the top of parapet walls, whichever is greater.

D105.2 Width. Fire apparatus access roads shall have a minimum unobstructed width of 26 feet (7,925 mm), exclusive of shoulders, in the immediate vicinity of any building or portion of building more than 30 feet (9,144 mm) in height if the fire access road is not a dead end. Dead end fire apparatus access roads for aerial apparatus access shall be a minimum of 30 feet (9,144 mm) wide.

D105.3 Proximity to building. At least one of the required access routes meeting this condition shall be located within a minimum of 15 feet (4,572 mm) and a maximum of 30 feet (9,144 mm) from the building and shall be positioned parallel to one entire side of the building. The side of the building on which the aerial fire apparatus access road is positioned shall be approved by the fire code official.

D105.4 Obstructions. Overhead utility and power lines shall not be located over the aerial fire apparatus access road or between the aerial fire apparatus road and the building. Other obstructions shall be permitted to be placed with the approval of the fire code official.

D105.5 Grade. Aerial fire apparatus access roads adjacent to the building shall not exceed five percent in grade.

SECTION D 106

MULTIPLE-FAMILY RESIDENTIAL DEVELOPMENTS

D106.1 Projects having more than 100 dwelling units. Multiple-family residential projects having more than 100 dwelling units shall be equipped throughout with two separate and approved fire apparatus access roads.

Exception: Projects having up to 200 dwelling units may have a single approved fire apparatus access road when all buildings, including nonresidential occupancies, are equipped throughout with approved automatic sprinkler systems installed in accordance with Section 903.3.1.1.

D106.2 Projects having more than 200 dwelling units. Multiple-family residential projects having more than 200 dwelling units shall be provided with two separate and approved fire apparatus access roads regardless of whether they are equipped with an approved automatic sprinkler system.

SECTION D 107

ONE- OR TWO-FAMILY RESIDENTIAL DEVELOPMENTS

D107.1 One- or two-family dwelling residential developments. Developments of one- or two-family dwellings where the number of dwelling units exceeds 30 shall be provided with two separate and approved fire apparatus access roads and that comply with Section D103.4.4.

Exceptions: Where there are more than 30 dwelling units on a single public or private fire apparatus access road and all dwelling units are equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3.3, access from two directions shall not be required.

The number of dwelling units on a single fire apparatus access road shall not exceed 30 dwelling units unless fire apparatus access roads will connect with future development, as determined by the fire code official.

Appendix E is hereby adopted in its entirety:

Appendix E: Hazard Categories - This appendix provides information, explanation and examples to illustrate and clarify hazardous materials.

Appendix F is hereby adopted in its entirety:

Appendix F: Hazard Ranking - This appendix applies hazard rankings to hazardous materials to make them the same as those issued by the Department of Transportation.

Appendix G is hereby adopted in its entirety:

Appendix G: Cryogenic Fluids – Weight & Volume Chart - This appendix is used to convert from liquid to gas for cryogenic fluids.

Appendix H is hereby adopted in its entirety:

Appendix H: Hazardous Materials Management Plan (HMMP) and Hazardous Materials Inventory Statement (HMIS) Instructions – This appendix provides guidance on developing a hazardous materials plan.

Appendix I is hereby adopted in its entirety:

Appendix I: Fire Protection Systems – Noncompliant Conditions – This appendix provides guidance on older and out of service fire protection equipment.

Appendix K is hereby adopted in its entirety:

Appendix K: Construction Requirements for Existing Ambulatory Care Facilities – This appendix helps the fire code official assess minimum fire and life safety requirements for buildings containing ambulatory care facilities.

Appendix L is hereby adopted in its entirety:

Appendix N is hereby adopted in its entirety with the following amendment:

Appendix N: Indoor Trade Shows and Exhibitions – This appendix addresses the hazards that are associated with larger, more complex trade shows and exhibitions

N103.3 Amend this section to read N103.3 Crowd managers. Where events involve a gathering of more than 500 people, trained crowd managers shall be provided in accordance with Section 403.12.3.

Sec. 18-7-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-7-50. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 7. International Energy Conservation Code. The Board of Trustees hereby repeals Article 8, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-8-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the energy code of the Town, by reference thereto, The International Energy Conservation Code, 2018 Edition as published by the International Code Council, 4051 West Flossmoor Road, Country Club Hills, IL 60478, Chapters 1 through 6, and Residential Provisions Chapters 1 through 6 inclusive, as published by the International Code Council, Inc., 4051 West Flossmoor Road, Country Club Hills, IL 604781, to have the same force and effect as if set forth herein in every particular. The subject matter of the adopted code establishes minimum regulations for energy conservation within the Town for the purpose of protecting the public health, safety and general welfare.

Sec. 18-8-20. Copy on file.

At least one (1) copy of the International Energy Conservation Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-8-30. Amendments.

IECC Section C101.1 IECC Section C101.1 (Title) is amended by the addition of the term "Town of Wellington" where indicated.

IECC Section C109.1 IECC Section 109.1 (General) is amended by the deletion of the last three sentences and replaced with the following:

"The members of the Board of Appeals shall be comprised of the members of the Town Board of Adjustments."

IECC Section C402.1.1 IECC Section C402.1.1 (Low energy buildings) is amended by addition of Exception #4 to read as follows:

"Commercial Structures that lack one or more of the basic amenities or utilities required for year-round occupancy or use such as a permanent heating system, insulation, and/or year-round usable plumbing."

IECC Section R109.1 IECC Section R109.1 (General) is amended by the deletion of the last three sentences and replaced with the following:

"The members of the Board of Appeals shall be comprised of the members of the Town Board of Adjustments."

IECC Section R109.3 IECC Section R109.3 (Qualifications) is amended by the deletion of this section in its entirety.

Sec. 18-8-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-8-50. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 8. International Property Maintenance Code. The Board of Trustees hereby repeals Article 9, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-9-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the energy code of the Town, by reference thereto, The International Property Maintenance Code, 2018 Edition as published by the International Code Council, 4051 West Flossmoor Road, Country Club Hills, IL 60478, Chapters 1 through 8 inclusive, The subject matter of the adopted code establishes minimum regulations for property maintenance within the Town for the purpose of protecting the public health, safety and general welfare.

Sec. 18-9-20. Copy on file.

At least one (1) copy of the International Property Maintenance Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-9-30. Amendments.

IPMC Section 101.1 IPMC Section 101.1 (Title) is amended by the addition of the term "Town of Wellington" where indicated.

IPMC Section 102.3 IPMC Section 102.3 (Application of Other Codes) is amended by the deletion of the last paragraph.

IPMC Section 103.5 IPMC Section 103.5 (Fees) is deleted in its entirety.

IPMC Section 111.2 IPMC Section 111.2 (Membership of board) is amended by the deletion this section in its entirety and replaced with the following:

“The members of the Board of Appeals shall be comprised of the members of the Town Board of Appeals.”

IPMC Section 111.2.2 IPMC Section 111.2.2 (Chairman) is deleted in its entirety.

IPMC Section 111.2.3 IPMC Section 111.2.3 (Disqualification of member) is deleted in its entirety.

IPMC Section 111.2.4 IPMC Section 111.2.4 (Secretary) is deleted in its entirety.

IPMC Section 111.2.5 IPMC Section 111.2.5 (Compensation of members) is deleted in its entirety.

IPMC Section 111.3 IPMC Section 111.3 (Notice of Meeting) is deleted in its entirety.

IPMC Section 111.4 IPMC Section 111.4 (Open Hearing) is deleted in its entirety.

IPMC Section 302.3 IPMC Section 302.3 (Sidewalks and Driveways) is deleted in its entirety.

IPMC Section 302.4 IPMC Section 302.4 (Weeds) is deleted in its entirety.

IPMC Section 302.8 IPMC Section 302.8 (Motor Vehicles) is deleted in its entirety.

IPMC Section 304.14 IPMC Section 304.14 (Insect Screens) is deleted in its entirety.

IPMC Section 308 IPMC Section 308 (Rubbish and Garbage) is deleted in its entirety.

IPMC Section 309 IPMC Section 309 (Pest Elimination) is deleted in its entirety.

IPMC Section 604.2 IPMC Section 604.2 (Service) is amended by replacing “NFPA 70” with “Electrical Code adopted by the state of Colorado.”

Sec. 18-9-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-9-50. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 9. International Existing Building Code. The Board of Trustees hereby repeals Article 10, Chapter 18 of the Wellington Municipal Code and reenacts the same Article to read as follows:

Sec. 18-10-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the existing building code of the Town, by reference thereto, The International Existing Building Code, 2018 Edition as published by the International Code Council, 4051 West Flossmoor Road, Country Club Hills, IL 60478, Chapters 1 through 16 inclusive, The subject matter of the adopted code establishes minimum regulations for exceptions to the building codes for existing buildings within the Town for the purpose of protecting the public health, safety and general welfare.

Sec. 18-10-20. Copy on file.

At least one (1) copy of the International Existing Building Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-10-30. Amendments.

International Existing Building Code is amended by replacing all references to "International Fire Code" with "Adopted Fire Code".

IEBC Section 101.1 IEBC Section 101.1 (Title) is amended by the addition of the term "Town of Wellington" where indicated.

IEBC Section 1401.2 IEBC Section 1401.2 (Conformance) is amended by the deletion of this section in its entirety and replaced with the following: "Structures moved into or within the jurisdiction shall comply with the provision of this code for new structures."

Sec. 18-10-40. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-10-50. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

Section 10. International Swimming Pool and Spa Code. The Board of Trustees hereby adds a new Article 11, Chapter 18 to the Wellington Municipal Code to read as follows:

Sec. 18-11-10. Adoption.

Pursuant to Title 31, Article 16, Part 2, C.R.S., there is adopted as the swimming pool and spa code of the Town, by reference thereto, The International Swimming Pool and Spa Code, 2018 Edition as published by the International Code Council, 4051 West Flossmoor Road, Country Club Hills, IL 60478, Chapters 1 through 11 inclusive, The subject matter of the adopted code establishes minimum regulations for exceptions to the building codes for existing buildings within the Town for the purpose of protecting the public health, safety and general welfare.

Sec. 18-11-20. Copy on file.

At least one (1) copy of the International Swimming Pool and Spa Code, certified to be a true copy, has been and is now on file in the office of the Town Administrator/Clerk and may be inspected by any interested person between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, holidays excepted. The code as finally adopted shall be available for sale to the public through the office of the Town Administrator/Clerk at a moderate price.

Sec. 18-11-30. Violations.

It is unlawful and constitutes a public nuisance for any person to maintain any property, building or any other structure in the Town in a condition which is in violation of the Building Code or this Chapter.

Sec. 18-11-40. Penalties.

Any person who violates a provision of this Code or this Chapter or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of the Code or Chapter, shall be subject to penalties as prescribed by law.

51

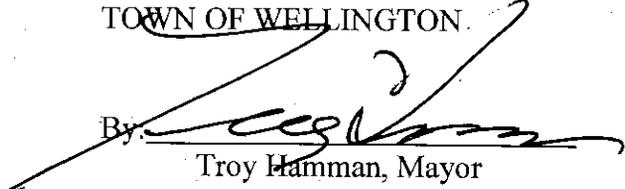

Section 11. Severability. Should any one or more sections or provisions of this Ordinance or of any of the primary or secondary codes adopted by reference be judicially determined invalid or unenforceable, such judgment shall not affect, impair or invalidate the remaining provisions of this Ordinance or the codes adopted by reference hereby, the intention being that the various sections and provisions are severable.

Section 12. Repeal. Any and all ordinances or codes or parts thereof in conflict or inconsistent herewith are, to the extent of such conflict or inconsistency, hereby repealed; provided, however, that the repeal of any such ordinance or code or part thereof shall not revive any other section or part of any ordinance or code heretofore repealed or superseded and this repeal shall not affect or prevent the prosecution or punishment of any person for any act done or committed in violation of any ordinance hereby repealed prior to the effective date of this Ordinance.

Section 13. Effective Date. Except as otherwise expressly provided herein, the provisions enacted by this Ordinance shall become effective at 12:01 a.m. on August 1, 2019.

READ AND INTRODUCED this 28th day of May, 2019 and public hearing scheduled for June 25, 2019.
