

# WELLINGTON WATER RESIDENTIAL RATE INCREASE NOTICE

Monthly Wellington Utility rates are increasing **effective Oct. 1, 2020**. This change will be reflected on your next bill arriving in November.

## WHY THE INCREASE?

The Town of Wellington has reviewed water utility rates and is making the first round of adjustments needed to reflect the increasing cost of providing safe and reliable water, stormwater, and wastewater services to Wellington Utility customers.

### Main Reasons for Increase

- Capital improvement needed to maintain water quality standards
- Rising cost to purchase water
- Expanded infrastructure needed to meet growing demands

Rate increases were approved during a Board of Trustees meeting held Sept. 22, 2020. To stay up to date with scheduled meetings, agendas and packets, visit:
